

Prepare for the Revised SAT With Our Customized and Individualized Program

The Michigan Legislature recently declared that the SAT would replace the ACT as the mandatory college preparatory test in 2016. Learn how to prepare for the distinct challenges of the SAT with our individualized program that is designed to help you reach **YOUR** target score.

The revised SAT will undoubtedly present new and unique challenges for prospective college students.

The redesigned SAT (coming in 2016) will put a greater emphasis on questions with real-world applications and will also feature problems that examine a student's ability to logically support or dispute a well-reasoned contention.

Consequently, it will be important for students to not only memorize the material as presented in a textbook, but also to have the ability to apply their knowledge to a variety of different questions.

HOW OPTIMINDS HELPS

1. Improve **Speed Reading** – Gives more time to find the answer.
2. Improve **Visual Stamina** – Will reduce “test fatigue.”
3. Improve **Visual Attention** – Identify important details faster.
4. Get into **THE ZONE** – Commit attention to exam to avoid distractions.
5. Improve **Analytical Thinking** – Evaluate information logically and objectively.
6. Content:
 - a. Grammar Rules
 - b. Math Strategy – Solve the problem.
 - c. Reading Comprehension – How to interpret confusing test questions.
 - e. Understanding science charts and graphs quickly.
 - f. How to write a winning Power Essay.
7. Find **your target score** for each section.
8. Parents informed about student practice and progress.
